### WaveLine Unmanaged Switches

The Weidmuller unmanaged switches integrate 5 to 8 ports in confined spaces in a compact and robust aluminium housing (IP30). With integral features such as auto-negotiation and auto crossing, and an operating temperature range of -10°C to 60°C.

The Weidmuller switches are ideal for setting up Industrial Ethernet wherever you require a simple link between your terminal equipment and your ethernet system. Units are powered by either 24vDC or 24vAC are DIN rail mounted and 10/100 Megabit/sec speed.

IE-SW-BL05-5TX 5 x RJ45

IE-SW-BL08-8TX 8 x RJ45

Where fiber connectivity is required to enhance distance and prevent EMC interference on cable, the Weidmuller unmanaged switches are also available with an additional number of multimode fiber port.

Weidmuller's mounting flanges are your best choice when a sealed IP65 or IP67 connection point is required from the front of the switching cabinet or distribution board.

#### Patch Cable (Cat 6a screened/LSZH)

0.5m 1165940005                      5m 1165940050

#### Field Install RJ45 plugs (Cat6a/No crimping tool required)
